

Tailor-made Solutions
for Hypermarkets &
Retail Businesses

Solver Hypermarket Solutions

About US

Solver's Hypermarket ERP is a comprehensive package comprising various modules for each department and innovative software that helps you make better decisions with accurate data reports and well-thought-out contingency plans for your organization's success.

Like any other business, a hypermarket has multiple divisions that a single accounting or billing software cannot serve. To strengthen the overall business, a hypermarket needs a comprehensive solution that allows each department to be efficiently handled. We have set up every detail you may require to manage your business efficiently.
